

## **Upper Yuba River Restoration Studies**

### **January 14, 1998 Meeting Draft Goals, Objectives and Agenda**

#### **Location: Penn Valley Fire Station, 10513 Spenceville Rd.**

*From Hwy 20, take the Penn Valley Dr exit on the south side and head into town.*

*The station is at the corner of Spenceville Rd and Penn Valley Dr.*

#### **Hosts: Nevada Irrigation District**

*Send comments and suggested changes to: Kevin Wolf, 530-758-4211, kjwolf@dcn.davis.ca.us*

#### **DRAFT Goals of the Overall Four Meeting Process:**

Gain agreement on the initial components of a study plan that will evaluate the feasibility of restoring anadromous fish runs above Englebright Dam on the Yuba River.

In the process, provide information that may benefit other issues.

#### ***Objectives for Meeting:***

*Review how this process developed and where it is going.*

Understand why CALFED has organized these meetings

Understand how CALFED will make any decisions on this issue.

Review and improve the goals and objectives of the next meetings.

Schedule next meetings and clarify tasks that need to be accomplished beforehand.

*Clarify and categorize stakeholder concerns about and reasons for supporting the goals.*

upstream fishery habitat

downstream fishery habitat

flood control

power generation

recreation and property values

water supply

water quality

*Review different methods by which upstream habitat could become accessible.*

#### **DRAFT AGENDA**

6 pm Pre-meeting coffee and discussion. Pick up new material.

6:30 Welcome and introductions

6:40 Review and adopt meeting groundrules

6:45 Agenda review

6:50 Review how this proposed study program developed and where it is going.

Clarify the goals and objectives of this process.

Questions and answers for those questions that are not already in writing.

*\*Dick Daniel, CALFED's Asst. Director Ecosystem Coordination Branch is tentatively scheduled to answer questions.*

7:30 Identify stakeholder concerns and issues. Put them into appropriate categories.

Start with the issues that did not get much time at Oliverhurst

(Power generation, flood control, water supply)

9:15 Schedule next meeting. Clarify the meeting objectives.

9:25 Evaluation of meeting

9:30 Adjourn
